

Is your nursing team interested in learning more about social care?

Advanced Professional Diploma
(CPD) in Adult Social Care Nursing

A unique opportunity exists for members of your nursing team to get involved with an exciting social care nursing programme.

This is the pilot, supported by Health Education England, accredited by the University of Bolton and currently is only available in Devon.

- ♥ Experiential, visually impressive mode of teaching.
- ♥ Fully immersive sessions within an adapted clinical bus, together with online sessions and self directed learning.
- ♥ Weekly face to face learning day over eight weeks within one module. 30 UCAS Credits.

As you know, there is a substantial demand from the social care nursing sector for high quality, sector specific training which helps retain, develop and motivate the nursing workforce for the future.

It will support Registered Nurses, Registered Nurse Associates and Assistant Practitioners to deliver the highest quality person-directed care and clinical expertise within nursing homes.

This is a dynamic, immersive and experiential learning experience with a focus on practical, reflective and critical thinking in practice. Learning is orientated towards clinical practice, understanding the needs of the individual and promoting values such as kindness, compassion and relationship/person centric wellbeing.

Participants will be fully engrossed in problem solving, innovation and reflective thinking development. This is a provider-led programme that will help improve skills, team development, leadership and boost confidence in practice.
